

Information Sharing Demonstration

The Department of Homeland Security, Science and Technology Directorate, Integrated Chemical, Biological, Radiological, Nuclear and Explosive (ICBRNE) Pilot Program participated in an information sharing demonstration for the Program Manager for the Information Sharing Environment. This successful demonstration integrated CBRNE data to and from Los Angeles Public Safety, Customs and Border Protection, the Kansas City Terrorism Early Warning Center and the DNDO Joint Analysis Center.

The ICBRNE program was part of an end-to-end solution that captured instrument data from a large variety of dissimilar fixed, mobile and hand-held sensors, routed the data through multiple network connections where it was captured and integrated into NIEM conformant standards. This structured data was managed and routed through the DNDO Mission Critical Messaging Program where it delivered to other systems in their familiar format.

MEMORANDUM FOR: Mr. David Lamensdorf
President Safe Environment Engineering (SEE)

FROM: Gregory J. Hall 
Program Manager, Domestic Nuclear Detection Office

SUBJECT: Recognition of Accomplishment

On behalf of the Mission Critical Messaging (MCM) Program at the Domestic Nuclear Detection Office of the Department of Homeland Security I am writing to express my deep appreciation for your outstanding contribution towards a highly successful demonstration of information sharing capability for the Program Manager for the Information Sharing Environment. SEE was instrumental in the development and flawless execution of a live information sharing demonstration involving the Greater Los Angeles first responder community, Customs and Border Protection, the Kansas City Terrorism Early Warning Center (KCTEW), and the DNDO Joint Analysis Center. The success of this demonstration has been highlighted the PM-ISE Annual Report to congress, and reported to the DNDO Director and the Director of National Intelligence.

I am appreciative of your accomplishments, and I look forward to a continued partnership with the SEE in our counter terrorism mission.
